WHAT ARE THE IMPLICATIONS OF USING AI FOR THIS PROJECT?

AI usage might have limited the own creativity of finding solutions in this project. However, I was aware of this problem and tried to minimize the effect, while profiting from AI assistance.

WHAT STEPS ARE WE TAKING TO MINIMIZE THE CHANCE OF HARM OR INAPPROPRIATE USE OF AI FOR THIS PROJECT?

This problem was not existent because of the nature of this project, and the personal way of working.

WHAT STEPS ARE WE TAKING TO MITIGATE ERRORS OF AI FOR THIS PROJECT?

Before accepting advice of AI, I asked myself how I should have solved this problem. Scheduling of work breaks to avoid mindless “AI search rush”.
